

SCOUT WIRELESS CONTROL PANEL

What does the SCOUT do?

The **SCOUT Electronic Control Panel** is easy to use, intuitive and competitively priced. The SCOUT is **Wireless** and transforms a standard pumping system into a smart system using your smartphone as a remote control via Wi-Fi (**NO APP REQUIRED**).

The SCOUT control panel allows you to interact easily with your system and monitor data. Also manages real-time **calibrations** and **alarms**.

• EASY TO USE

• COMPETITIVELY PRICED

• INTUITIVE
