### About St Helena

St Helena helps local people face incurable illness and bereavement, supporting them and their families, friends and carers. They also support children and adults who are facing bereavement.

St Helena reach out to members of the community, helping them make their own choices and live with dignity. By focusing on their physical, emotional and spiritual needs, they aim to bring comfort and relief to all those who need it, offering the people of North Essex individual care and total support, regardless of their diagnosis or personal circumstances.

(literally) St Helena Hospice branded  
sanitiser,

and the profits are  
being donated to  
us! Thanks Geoquip!

## Why St Helena is important to Geoquip and our local community...

Local company, Geoquip Water Solutions, is selling hand sanitiser to raise funds for **St Helena Hospice**.

The Ipswich based specialist suppliers to the water industry, is selling 500ml bottles of hand sanitiser to businesses and individuals nationwide, with all profits being donated to St Helena Hospice to help local people face incurable illness and bereavement.

Sarah Wilson, St Helena Hospice's fundraising manager, said: "Geoquip has been fantastically supportive of us for a number of years and we are so grateful to them for continuing to support us, especially during this difficult time, when we're suffering a devastating loss of income.

"Selling hand sanitiser in aid of the hospice is such a brilliant idea. It's so vital for all companies to have hand sanitiser available for employees, visitors etc, so it's a much-needed product.

"We're delighted that they're donating all the profits to us which will go towards providing our expert care and support to patients at home, at The Hospice and over the phone."

To find out more, or to purchase some hand sanitiser (boxes of 12, individual bottles or in bulk) from Geoquip in aid of St Helena Hospice, please visit [geoquipwatersolutions.com/hand-sanitiser-500ml-bottle](http://geoquipwatersolutions.com/hand-sanitiser-500ml-bottle)
