GEOQUIP PRODUCTS

Surface and Borehole Pumps

- High performance
- Sizes 3" to 12"
- Flows up to 500m³/hr
- Stainless steel 304/316/904
- High temperature 90°C
- Surface and borehole

Special Execution Pumps

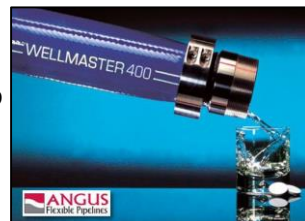

- ATEX certified to 94/9/CE
- Corrosive & Saline water units
- Leachate & hydrocarbon pumps
- High temperature 70°C to 90°C
- Solar borehole pumps
- Custom built borehole pumps

Submersible Motors

- Sizes 3" to 12"
- Rewindable & Encapsulated
- 30°C/50°C/90°C working temp
- Stainless steel 304, 316 & 904
- Up to 400kW
- Vertical/Horizontal installation

Wellmaster Flexible Rising Mains

- Various sizes available
- Fast installation and removal
- Exceptional strength & quality
- Reduced operational costs
- Superior performance
- Approved under DWi Reg 31

Web based telemetry Systems

- Personalised telemetry
- Full remote access
- Multiple data displays
- Customised programming
- Alarms, events & notifications
- Mobile device friendly

Construction Dewatering Equipment

- Specialist supplier
- Wellpoint systems
- Ejector systems
- Deepwell systems
- Towerlights & Dustfighters
- Dewatering pumps

Lakos Sand Separators

- Filtration & separation
- Flow range 0.5 to 990m³/hr
- Domestic & industrial
- Remove sand, silt & grit
- Easy to install and clean
- Extend the life of equipment

Control and Starter Panels

- All types available
- Single and three phase
- Constant pressure inverters
- Wall and motor mount
- Custom made panels & cabins

Borehole Cameras

- 110m to 610m
- Diagnose well problems
- Record & adjustable lights
- Down / side view
- Fully portable
- Record single file to USB

Well Rehabilitation Treatment Products

- Cleans wells from iron oxide
- Remove manganese oxide
- Cleans pumps, pipes & fittings
- Fast acting & completely safe
- Extends life of pumps & wells
- Improves water flow
