

## NEW PUMP DRIVERS

### SPEEDMATIC IN LINE PUMP INVERTER CONTROLLERS

We are now offering a wide range of state of the art automatic control and protection systems for electric pump drivers. The Speedmatic family of in line pump inverter controllers use new technology to manage the main pump

more efficiently. They can run both three phase and single phase systems and are capable of integrating up to four booster pump systems. Incorporating high safety protection features the systems also have an emergency working function as well as anti-ice controls. The controllers can communicate using Wi-Fi and have a wide range of programmable features that come as standard. [Contact us](#) for details of the Speedmatic range of inverter controllers.

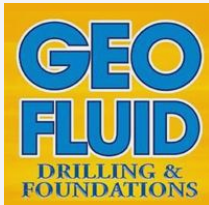

### WELLMASTER 32mm Coupling Now available!

The new 32mm stainless steel coupling raises the levels to which LD100 will perform to 150 metres.

### Autumn Season in Italy - Exhibitions

We will be exhibiting at

**GEOFLUID**, on at the Piacenza Expo 6<sup>th</sup> to 9<sup>th</sup> October

**REMTECH**, on at the Ferrara Fair Centre 21<sup>st</sup> to 23<sup>rd</sup> September

At both exhibitions we will be showcasing the new Laval portable downhole video camera and the latest innovations with Boresaver, cleaning solutions for iron oxide, manganese oxide, iron related bacteria and calcium carbonate problems.

## PANEL NEWS

### Irrigation Panel

We have developed a small irrigation panel for LWS, an online irrigation catalogue company.

The panel has been specifically designed for landscape irrigation con-

tractors to use with both surface mounted and submersible single phase pumps. The unit offers a smart, efficient and flexible solution to the remote starting of irrigation pumps and can be used with a pressure switch, a level control switch or a 24 volt instruction controller. To find out more visit [www.lws.uk.com](http://www.lws.uk.com).

### Fully Integrated Sewage Panel

The Fox panel, the latest state of the art panel from the Maniero high tech panels, will soon be available.
