STOP! Is your next investment a downhole camera system? We recommend the New Laval R-CAM 1000 XS...

NEW R-CAM 1000 XS

The **NEW R-CAM 1000 XS** is the latest camera to be developed by Laval Underground Systems and offers enhanced features that make the market leading camera even easier to use:

- Monitor located in lid of the unit for instant viewing
- Stronger and stable upgraded single motherboard
- Menu driven assembly for easy set up - cable calibration, temperature monitoring, feet or meters measurement
- DVR SD card recorder system as standard.

If you would like to find out more click [here](#) or contact us on info@geoquipservices.co.uk or tel: +44 (0)1473 462046 or your closest dealer.

New R-CAM 1000 Flight Cases

An R-CAM 1000 is a valuable investment and we strongly recommend you protect your camera with our made-to-measure durable flight cases. Constructed from plywood and made to the highest quality standards, the cases are specially reinforced to ensure your camera and accessories are carefully protected both when traveling or on site.

Cases available in three models: R-CAM Camera Flight case, standard briefcase & heavy duty briefcase.

Please contact us if you would like to find out more or request a product sheet.
