## Wellmaster Flexible Rising Main – NEW RANGE Wellmaster 150, 250 and 400!

Angus Wellmaster has introduced a new range of Flexible Rising Main to add to the recently released Wellmaster 400. New features include increased system pressure capability, additional end tensile strength, greater effectiveness in arduous conditions and is tested to the highest standards. The Wellmaster 150 replaces the 100 and 120 series and the Wellmaster 250 replaces the 200.

Offering major cost savings and performance advantages, the Angus Wellmaster 'steel on a reel' range is the only flexible rising main approved to Regulation 31 and permitted to be used in all new public and private installations. With proven performance in more than 40,000 installations and an extended manufacturer's warranty, Wellmaster is available in a wide range of sizes and performance ranges. It offers:

- **Exceptional tensile strength**
- **High abrasion resistance**
- **Superior hydraulic efficiency**
- **Total corrosion and scaling resistance**

The major benefits of Wellmaster include:

- **Fast installation and renewal**
- **Reduced operational costs**
- **Superior performance**
- **Approved under Regulation 31**
- **Reduced transportation & storage costs**
- **Complies with DWI requirements**
- **Long service life**
- **Excellent technical support**

The approved Wellmaster Rising Main system is ideal for extraction, water supply wells for desalination plants, geothermal, leachate extraction, mine and quarry de-watering, offshore fire protection pumping, scavenger pumping and groundwater stabilisation on building sites.

We keep large quantities of Wellmaster in stock and offer competitive quotes and a prompt delivery service. Contact us now to place your order. TEL: +44 (0)1473 462046 Email: [info@geoquipservices.co.uk](mailto:info@geoquipservices.co.uk)

### NEW WELLMASTER PRODUCTS

#### **Wellmaster 150 NEW!**

150m total working head  
**Replaces the 100 and 120 series**  
Available in 1½", 2" and 3"  
200m single lengths  
No Corrosion  
No bacterial growth  
5 year warranty

Click [here](#) for more information.

#### **Wellmaster 250 NEW!**

250m total working head  
**Replaces the 200 series**  
Available in 2", 3", 4", 5" and 6"  
Tensile strengths to 20 tonnes  
200m single lengths  
No Corrosion  
No bacteria growth  
5 year warranty

Click [here](#) for more information.

## Wellmaster 400 **NEW!**

400m total working head  
Available in 3" and 4"  
Additional end tensile strength  
No Corrosion  
No bacteria growth  
5 year warranty

Click [here](#) for more information.
